MEDIA RELEASE

WMGH COVID-19 Outbreak Declared Over

April 13th, 2021 – The Marathon Family Health Team (MFHT) and the North of Superior Healthcare Group (NOSH) are reporting zero (0) new cases of COVID-19 in Marathon.

The Thunder Bay District Health Unit confirmed the resolution of one (1) more case in our community, bringing our active cases down to three (3).

We are also pleased to announce that, as of 7:00pm tonight, the facility-wide outbreak at the Wilson Memorial General Hospital is officially declared over.

NOSH is extremely grateful to the physicians, healthcare workers and staff who worked tirelessly to manage the outbreak and to continue to provide quality, compassionate care to our patients. We would also like to thank our patients and their caregivers for their support, trust and patience as we navigated through the outbreak.

To everyone in the community who has sent us well wishes and messages of support over the last few weeks, thank you! Your support helped the NOSH staff and patients stay positive throughout these challenging times.

Last but not least, we would like to recognize the Thunder Bay District Health Unit for their guidance and assistance over the last few weeks.

“While today we celebrate the incredible efforts of our staff and physicians, support from our community and the resiliency of our patients, we should also pause and remember the loss of three of our community members to COVID”, says Adam Brown, NOSH CEO.

Your healthcare team would also like to take this opportunity to remind you of the seriousness of COVID-19 and to encourage you to continue taking necessary precautions as we work on immunizing our population.
